

Welcome to Finnskania Loghome

Many thanks for your interest and a warm welcome to Finnskania ® Log Homes

Please find on our homepage some free information concerning our production and delivery program (**Certify ISO 9001:2000**)

We offer a choice of six different log styles. Log sizes vary from 90mm – 300mm for a luxury log home with flair! Choose a style according to your taste and budget: a traditional Finnish or Canadian hand crafted log home, or precision-milled logs, flat, round, or beveled.

To calculate an exact price for your project, we request that you please send us the model number from the Home & Plans side, or a scaled sketch of your own project idea.

Please include your desired log style and any other important details. Our design professionals will be more than happy to help you further.

We deliver world-wide and can also supply professional building crews or a foreman as your needs dictate, so give us an idea of the materials and services you would require from us.

Whether you only need the log and timber set delivered to your building site or you want a “turn-key“ house, we have the team to serve you.

The first column on the pricelist gives the prices for a few models “ex-work”, that is, without delivery.

When you have a better idea of what you’re looking for, we’ll be glad to calculate a total price for you.

You can find more information at the Finnskania sales representative in your area, or visit one of our current building sites to get a close-up Finnskania Log Home experience.

Please feel free to contact us and our log home specialists will gladly answer your questions and provide you with the information you need.

Sincerely,

FINNSKANIA® Log Homes ...*the beginning of a long friendship !*

John Collier, sh.
